Continuation Sheet (PTOL-413B)

Continuation of Substance of Interview including description of the general nature of what was discussed: Agreed to amend claim 1 to specify the replaceable wear element as being positioned through the portion of the filtrate channel having a closed cross section, the limitation having basis in original Figures 3 and 4, to patently distinguish over Bonn. Agreed to amend claim 2 to clarify the location of the replaceable filtrate onnel insert within the filter plate, the limitation having basis in original Figure 3 and 10. Agreed to amend claim 3 to provide the filtrate outlet structure for accomodating the releable filtrate outlet insert, the limitation having basis in original Figures 3, 9, and 10. See the attached examiner's amendment and reasons for allowance for details..
